

EU Food 2030 Project Family

Collaborating to speed up and deepen EU Food System Transformation

Supporting Food Systems

Fifty cities across Europe are involved in five EU Horizon-funded projects investing over €50 million by 2024 to innovate local food systems. FoodSHIFT 2030, FOODE, Food Trails, Cities 2030 and FUSILLI constitute the “EU FOOD 2030 Project Family” and collaborate towards the sustainable transformation of the European food system aligned with the European Commission’s FOOD 2030 and Farm to Fork Strategy.

Creating Participatory Labs

Each city involved in the projects addresses the food system transformation through Living Labs: open innovation ecosystem that facilitate the engagement of different food system stakeholders to share ideas and co-create meaningful solutions.

Objectives

 **NUTRITION** for sustainable and healthy diets

 **CLIMATE** smart and environmentally sustainable food systems

 **CIRCULARITY** and resource efficiency of food systems

 **INNOVATION** and empowerment of communities
